Spenda Africa Limited • 03/2025 - 06/2025

Spenda is a blockchain-based payment ecosystem (built on the blockchain by Spenda and its partners like Fleta in earlier stages) that focuses on digital payments, invoicing, point-of-sale solutions, and business payment automation. It's more B2B-focused, helping merchants, suppliers, and customers process payments using both fiat and crypto.

Community Manager & Customer Support • Part-time

- Managed and grew Spenda's online community across Discord, Telegram, and social media platforms.
- Fostered engagement and retention by organizing AMAs, events, and interactive campaigns.
- Provided support and guidance to community members, ensuring a positive user experience.
- Collected feedback from users and communicated it to the product and development teams to improve features.
- Monitored community sentiment and maintained a safe and respectful environment.
